

How to Enroll Your Android Device With Cisco Meraki Systems Manager

Important Notes:

- Minimum version of Android required to enroll as of October 2019: v 9.0 (Pie)
- 6 character passcode required (Fingerprint unlock supported), must be changed every 365 days, device may not be 'rooted'.
- If you experience issues enrolling your Android device, contact the Bioventus IT Service Desk by email or phone:

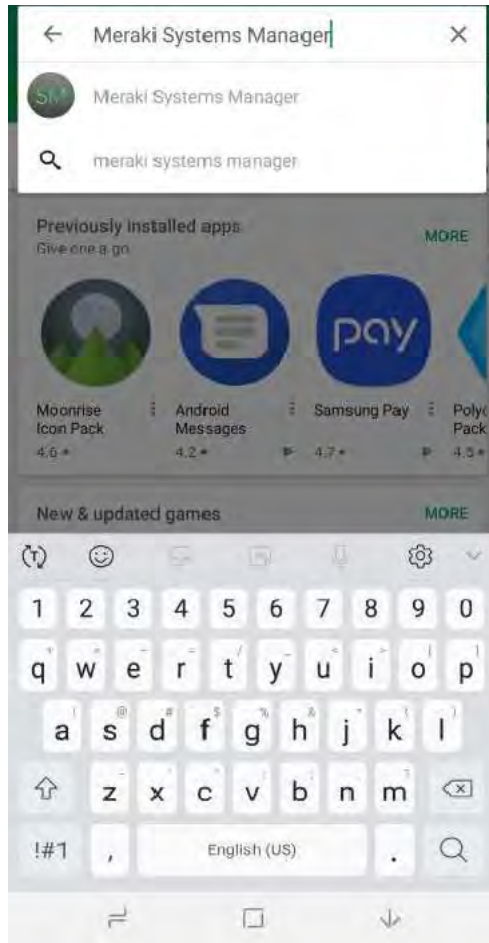

Bioventus.servicedesk@nwnit.com or

1-855-284-8457 Please call for immediate assistance.

Use your BV number @bioventus.com

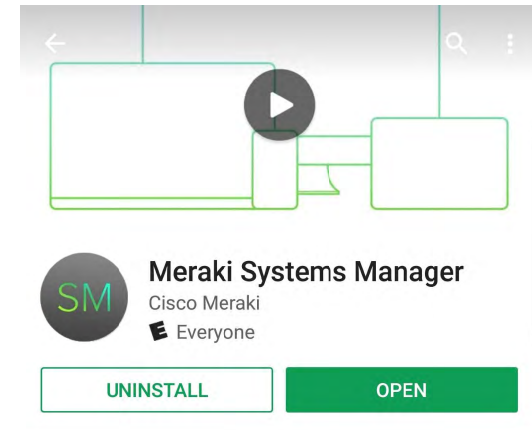

1. Launch the Google Play Store and search for **Meraki Systems Manager**

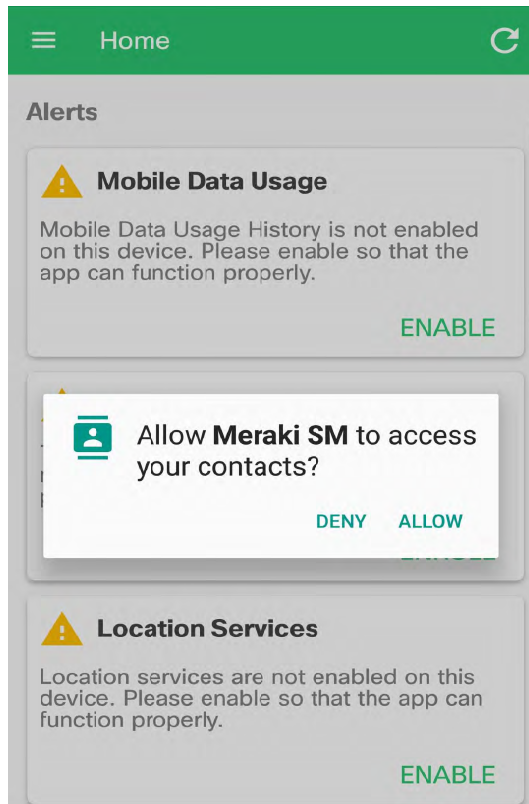

2. Tap **Install**

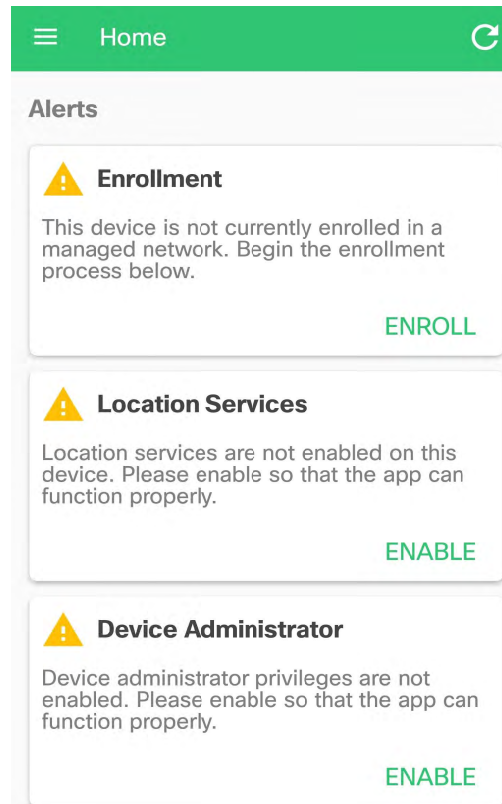

3. Tap **Open** to launch Meraki Systems Manager.

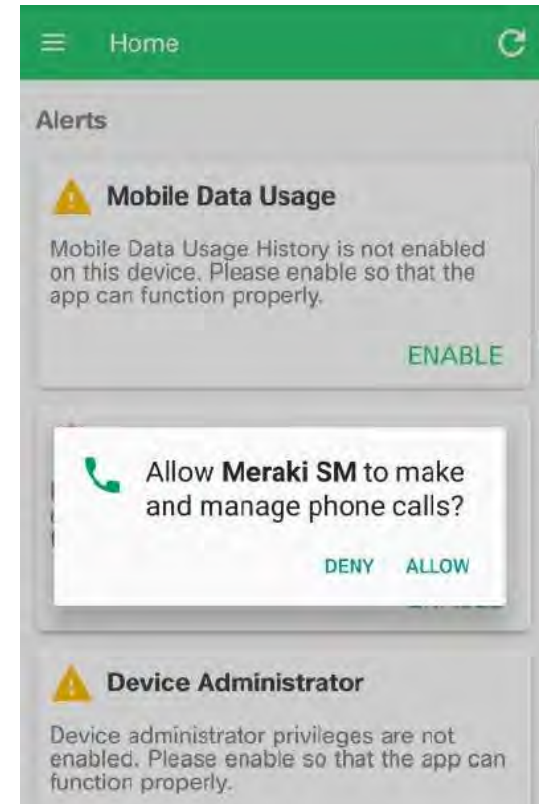

4. After install, **Allow** Meraki permission to access your contacts

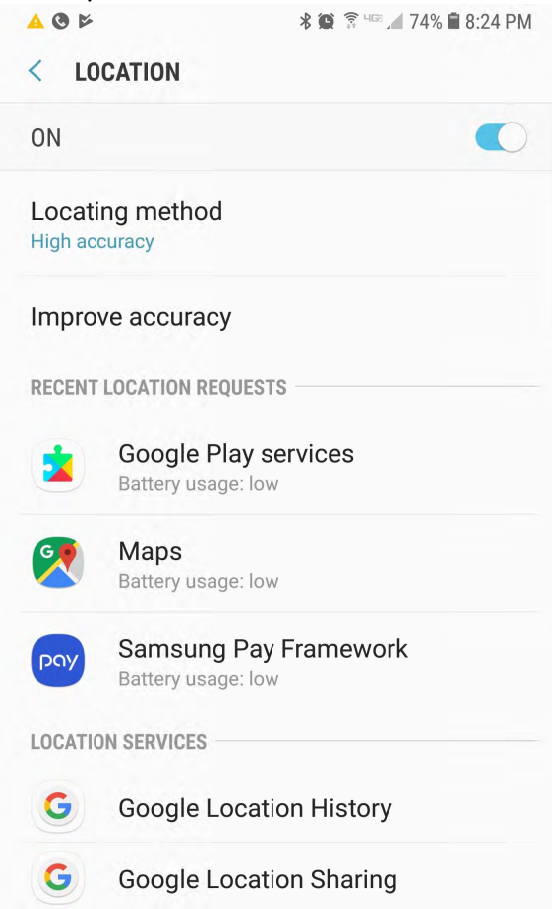

5. Tap **Enroll** under Enrollment

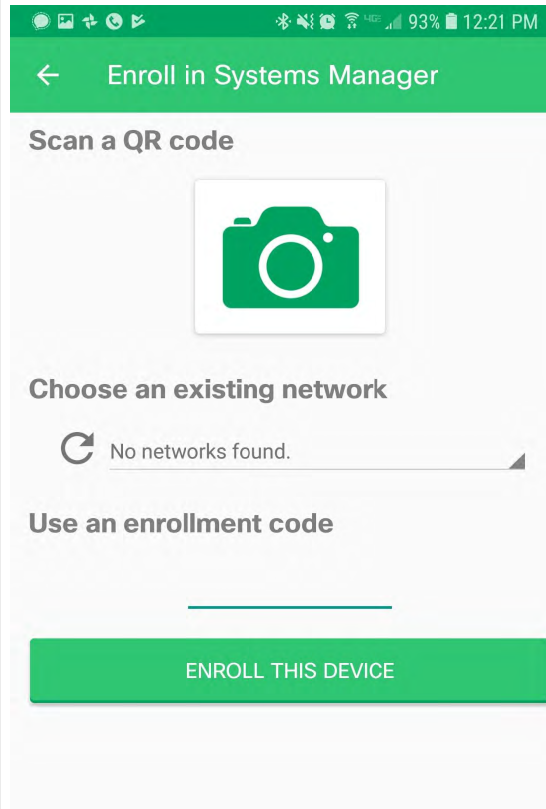

6. Tap **Allow** to permit the management of phone calls

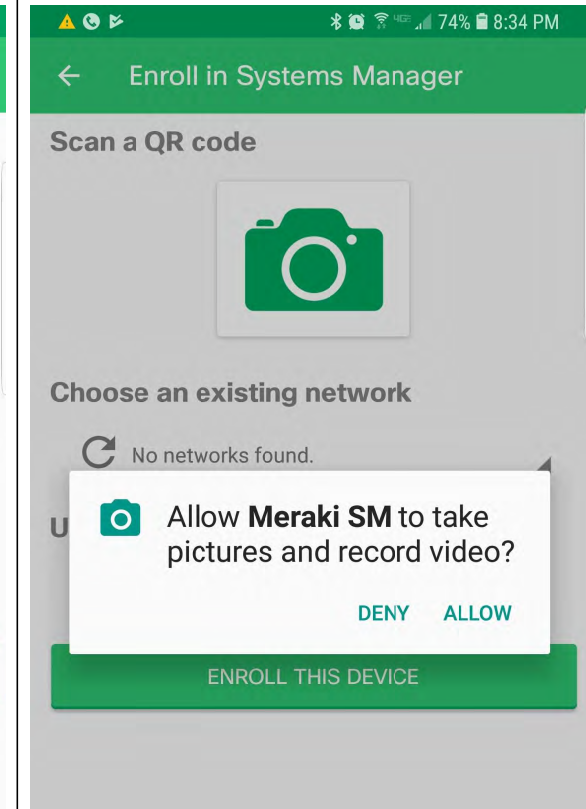

7. The Location menu may appear.
Tap the **Back** button to exit this menu

8. Tap the Camera icon

9. Tap **Allow** to grant access to your camera

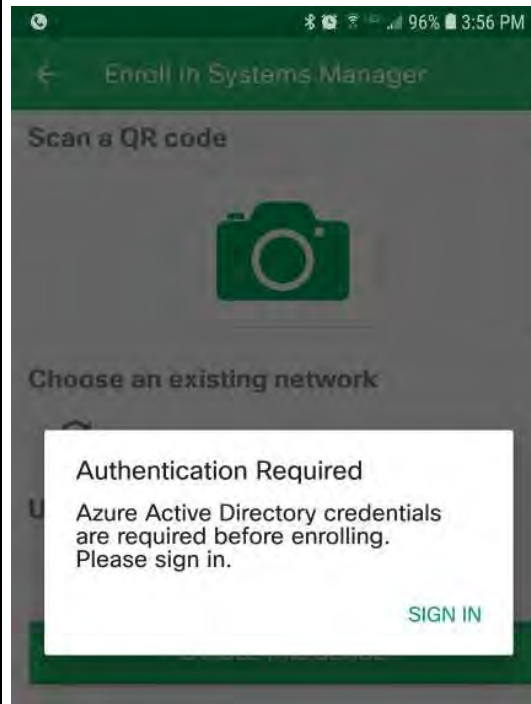

7. Hold the camera near the QR code

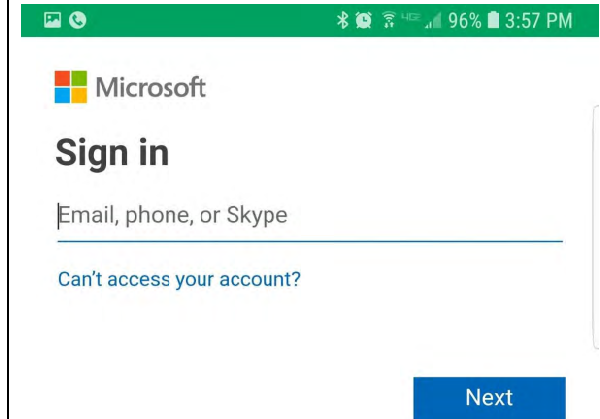

Or use the Enrollment code:

172-825-5653

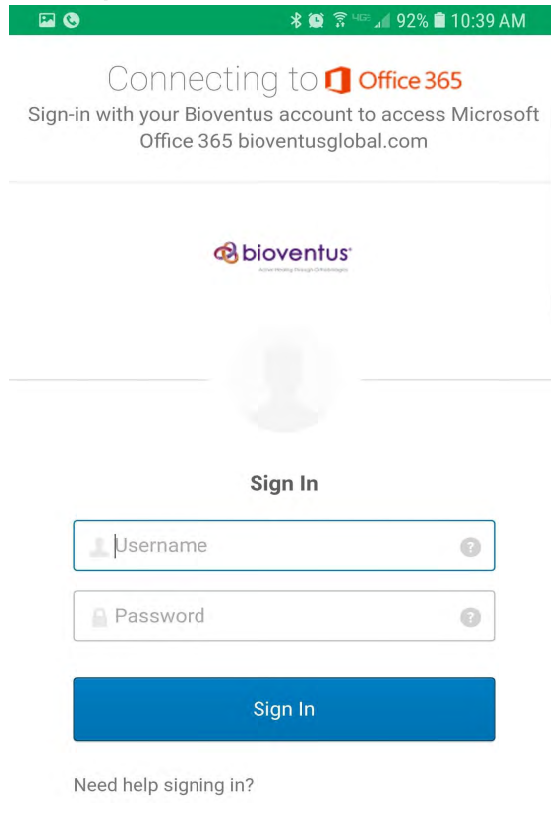

8. An **Authentication Required** message will appear.

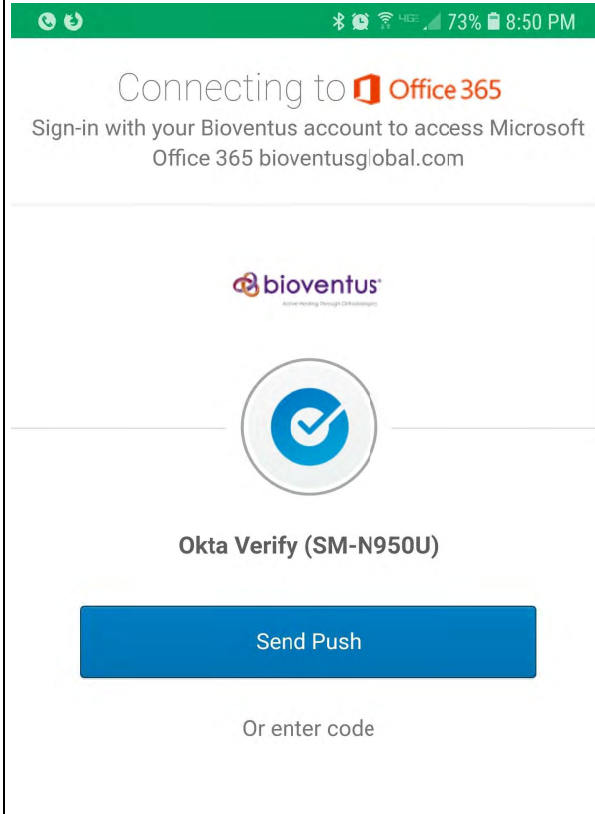

9. Enter your username; for example: bv0000@bioventusglobal.com OR @bioventus.com and click **NEXT**

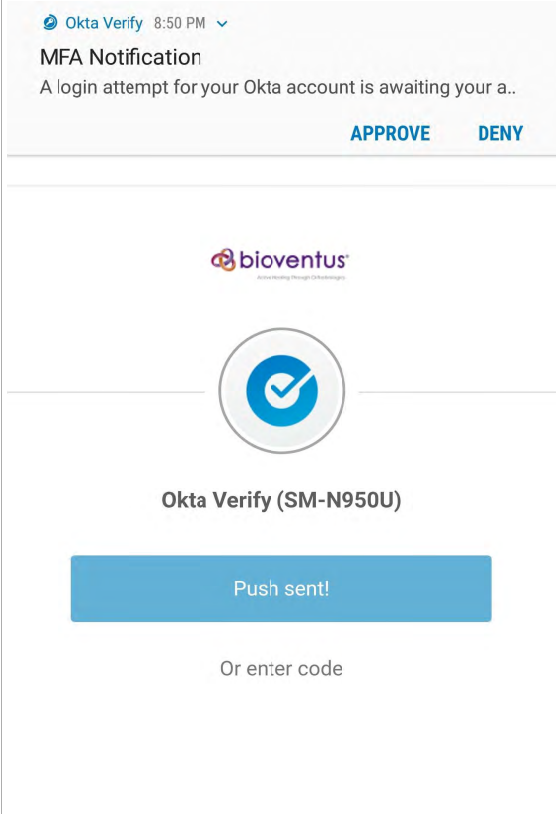

10. Enter your username and password (ex. bv0000), then click **Sign In**.

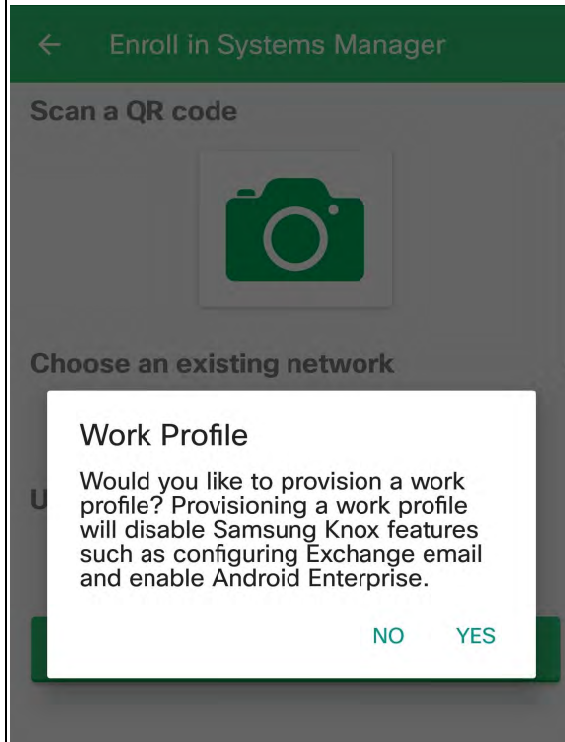

11. Okta Verify will prompt you for approval.

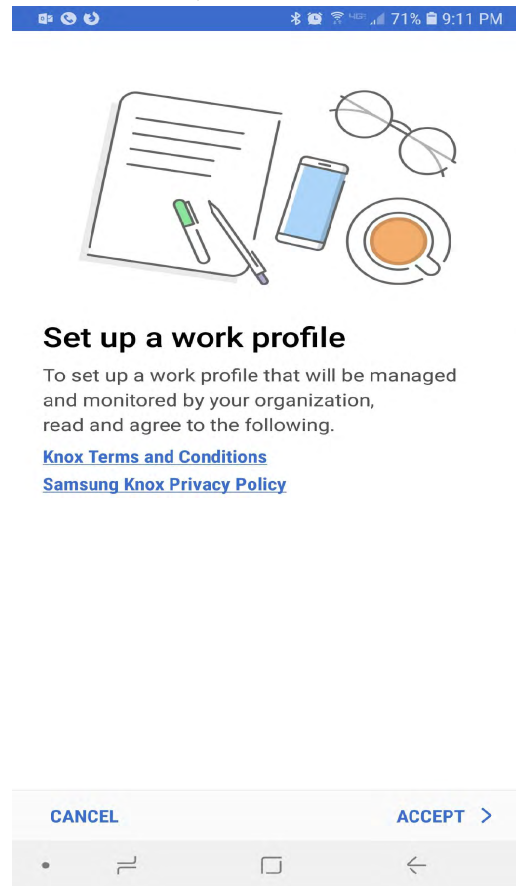

12. Select APPROVE.

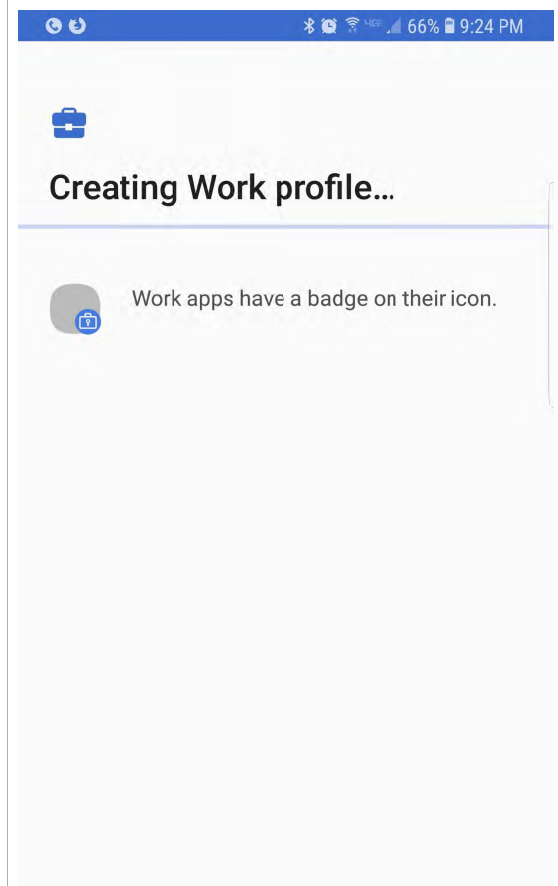

10. Select **YES** to create a Work Profile

11. Select Accept.

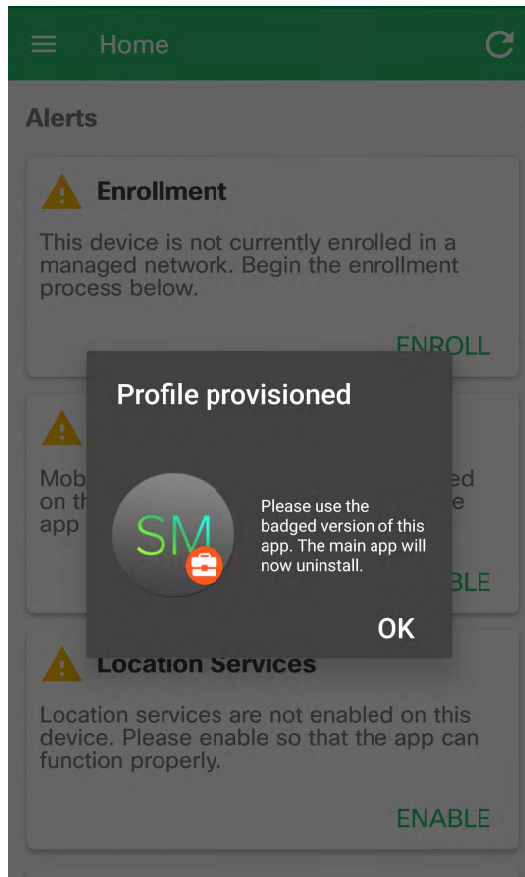

12. Wait for the message to disappear.

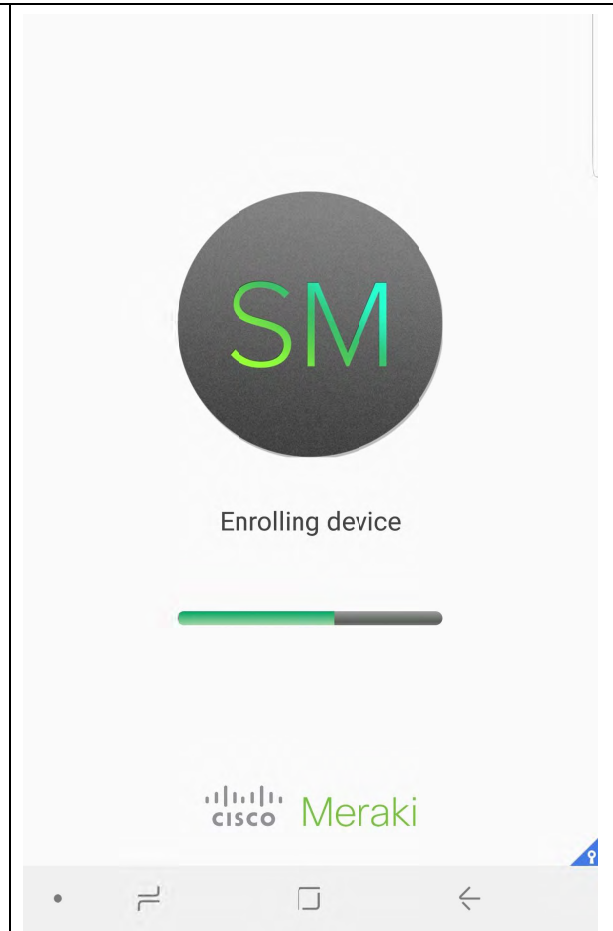

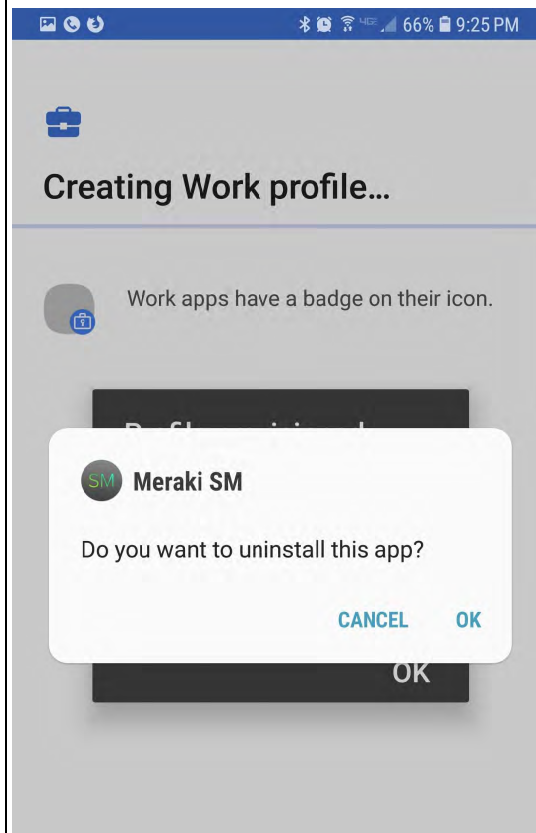

Depending on the version of Android on your device, you may not see this prompt. That is ok.

13. Tap OK to remove the initial app

14. Tap OK to complete enrollment and confirm removal of the initial setup app.

* Wait several minutes for your device to receive the Meraki MDM app. Your phone must remain on during this time and preferably unlocked. Do NOT let your phone go to sleep.
